Doug Mickelson
Oil Transfer Systems
7009 Sunnyside St
Horace, ND 58047

Doug,

The Oil Transfer System has been an invaluable tool for us here at United Rentals Highway Technologies in West Fargo, ND. Much of our equipment is run by hydraulics, with overheating and destroying hydraulic pumps being major problems for us. We started using the Oil Transfer System to clean our hydraulic fluids, and since that point, we have eliminated the overheating problem and greatly reduced any pump breakdowns this entire construction season. I would highly recommend anyone using your system to help keep their equipment running smoothly.

Michael Puhlman
